14 June, 2011

Refuse Disposal

Management has noted with dismay the unhealthy practice whereby some members of staff resident off-campus bring their domestic wastes into the University Campus for disposal. Such people usually pack their refuse into jute bags and other containers and dump such at various locations within the campus, especially along Obong Road/Amina Way.

This unhealthy development may cause an outbreak of epidemic within the campus, which must be avoided.

Management has therefore directed the Security Unit to take photographs of such offenders, as well as impound their vehicles.

Meanwhile, on-campus residents and office cleaners are enjoined to dispose of their refuse properly at the designated refuse depots. The use of refuse bags is highly recommended.

Thank you.

Omotayo O. Ikotun (Mrs.)

Registrar
