SECURITY ALERT

Management wishes to alert members of the University Community especially students both resident within and outside the campus to be security conscious and avoid moving in isolated areas at odd hours.

This warning becomes necessary in view of the arrest of two students of this institution by the police, during a recent raid on a group of suspected gangsters believed to be unleashing terror, on unsuspecting passers-by in the Agbowo area of town.

Even though the preliminary investigation by the police later exonerated the students, they had been subjected to the indignity of being arrested by the police.

Members of the University Community are therefore advised to please be cautious in their movements as the raid by the Police would be a continuous exercise, until the criminals are brought to book.

Thank you.

Omotayo O. Ikotun (Mrs.)
