

# WORLD SIGHT DAY 2023

World Sight Day celebrating is always a great opportunity to create awareness of:

- ❖ Improved eye care
- ❖ Preventing of avoidable blindness
- ❖ providing free and affordable eye care services to the less privileged persons in our various communities
- ❖ Eye health Education to the public, etc.

It is celebrated on every second Thursday in October annually.

Quotes of the day are thus;

- ❖ "The eyes are like a lamp for the body. If your eyes are sound, your whole body will be full of light. Visit an Eye clinic today! "
- ❖ "Even the slightest vision impairment can reduce productivity by 10% and accuracy by 20".
- ❖ "Na person wey dey see, dey work". etc.

Thank you.
